The thing is, after pressing submit, I get a not found error. I have read so many different code examples online and even the ASP.NET books but nothing seems to work. This is my code: My Controller: [HttpPost] public void SaveData(Game entity) { using (SqlConnection connection = new MySqlConnection(ConfigurationManager.ConnectionStrings["DefaultConnection"].ConnectionString)) { connection.Open(); using (SqlCommand command = new MySqlCommand()) { command.Connection = connection; command.CommandText = "INSERT INTO Games (Title, Description, Genre, Price, MediaType, Publisher) VALUES (@Title, @Description, @Genre, @Price, @MediaType, @Publisher)"; command.Parameters.AddWithValue("@Title", entity.Title);

### Features Key:

- **Challenge type:** multi-player
- **Duration:** about 1 hour
- **Teams:** single-player mode has a choice of 9 to 16 players.
- **Age limits:** all players must be at least 13. Players under the age of 13 can not be on-line, regardless of skill.
- **Injuries:** opposing players on the opposing team can be hurt. Players can receive injury cards and, at the end of each round, injury cards will be removed.
- **Gameplay:** maps are played in 3 stages: offense, defense, and the end-of-round period: offense is the greatest percentage of possession, defense is based on a 1:1 flanker:centerman ratio and the end-of-round period is a period of directly combat-like actions.
- **Keyboard and mouse support:** keyboard control is preferred, and a mouse is needed when few mouse actions are required. It is recommended that the mouse is placed within easy reach and never more than a few feet from the player's keyboard.
- **Game summary:** at the end of the game, statistics are presented that show the difference between the two teams.
