I have an idea for the next question but I can't pull it off, as there is no program on my netbook to implement it. I'm assuming it won't be a computer... As I think about it, I'm using a computer that was in a warehouse, or at least it was in some place with a warehouse, which means it can't be connected to the Internet through a network or something. However, it has ports that I can use (I have the ability to connect to the Internet with
